Don:

Thank you for your recent donation of \$75 to the Carbondale Historical Society. It will, I can assure you, be put to good use. We continue to receive donations of Carbondale-related artifacts from far and wide, and we have purchased several archival storage units, and your donation will strengthen our

current archival storage project.

--Our caboose now has a new roof and a spotlight system has been installed around the Caboose to make possible/enhance night time viewing.

--very successful Christmas Dinner and Christmas concert again this year

--membership numbers are holding strong in spite of the "anti-historical"/ tear down that statue sentiment out there in America.

--new sign soon to be installed at the First Underground Mine site (I'll send a photo when the new sign is up).

All is well.

Thanks again for your generous donation.

Best,

Robert

Robert, thanks so much for your communication. I am happy to know you are still overseer of the Historical Society. It is a good thing that you are able to obtain additional storage units. A worthy investment as artifacts are becoming harder and harder to obtain as a large majority of this new generation has no interest or regard for what made this country great. It seems like their only interest is how much they can obtain and profit for themselves.

I thank you so much for your going to send me a picture of the new sign that will be installed at the original mine site. It means the word to me! Is the original monument still

safe? [emphasis added] I have a picture of my niece standing by it. I still hope, in my bucket list, to be able to have my picture taken standing by it

and to see where the original mine site was. As the song goes, "It may not mean much to some but it does to me" . Recently I have bestowed upon my daughter, Amanda, who lives in Missouri, all the remaining Law family artifacts and history. She is deeply interested in the Law history and wants to plan a trip to Carbondale to the museum and hopefully meet you. She also wants to plan a trip to Scotland to further track down the Law ancestry. I have told her what a wonderful and knowledgeable person you are and can no doubt tell her things about Archibald Law that I am not even aware of.

Robert, thanks for just being you and taking such expert and wonderful care of ALL the wonderful history of the Carbondale area. No one else could have undertaken the task and produced such an amazing result.
